Skills

- **Technical:** C, C++, Python, JavaScript
- **Soft:** Communication, Documentation, Problem solving

Work Experience

Company 1 Jan 2000 - Dec 2000
Unpaid Intern *Lahore, Pakistan*

- Developed website using HTML and CSS.
- Maintained records of code base and documentation with semantic versioning.
- Maintained documentation including project charter, scope, software requirements specification, technical design document, architecture decisions records, incident and progress reports, test cases, plans, deployment runbook.
- Monitored security and anonymous telemetry.
- Release and release management.

Company 2 Jan 2000 - Dec 2000
Unpaid intern *Lahore, Pakistan*

- Performed database queries and content updates through a Strapi headless CMS.
- Developed UI components using HTML, CSS, JavaScript, and React.

Projects

Project 1 https://github.com/example_name/example_project

- Designed an automated personal knowledge-base pipeline that converts Markdown notes into a published static website using MkDocs, YAML, Bash, Python, and LaTeX
- Designed an automated backup workflow using Google Drive, GitHub, and GitLab to provide redundant storage and reduce risk of data loss from hardware or power failures.

Project 2 https://github.com/example_name/example_project

- Developed a multi-threaded ray tracing renderer in C++ that distributes pixel computation across a configurable number of threads, boosting image generation depending upon hardware (4x on 6 cores processor) and shows the result on a SFML window
- Built a JSON-driven configuration system covering four parameter groups - scene objects (size, color, material, position), camera (position, orientation, focal length), image output (dimensions, samples per pixel), and thread count - so scenes can be re-rendered without touching code.

Education

University of Pakistan Jan 2000 - Dec 2000
Bachelors *Lahore, Pakistan*

- CGPA: 3.7/4.0
- Studied Computer Science

Boys College Jan 2000 - Dec 2000
College *Lahore, Pakistan*

- Grades: 88%
- Studied ICS

Certificates

- C1 English(verification_link_display), EF SET — Jan 2000
- ROCm Associate(verification_link_display), AMD — Jan 2000

Volunteer Experience

Revenue Cat Shipaton — Jan 2000 - Dec 2000
Hackathon — *Remote*
- Developed mobile game in Unity for android
- Integrated Ads

National Skills Competency Test — Jan 2000 - Dec 2000
Benchmark — *Lahore, Pakistan*
- Grades: 68/100
- Different domains: web, AI, Security, Networks, Databases, generic software engineering
